

Swetha S

Computer Science Engineer | Python Developer | AI/ML Enthusiast

+91 9043199526 | swethakavitha.2026@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Computer Science and Engineering graduate with a strong academic foundation in programming, data structures, object-oriented programming, and software development. Hands-on experience in full-stack application development, RFID-based tracking systems, and deep learning for medical image analysis. Skilled in Java, Python, C, MySQL, HTML, and CSS, with strong problem-solving and analytical abilities. Oracle Certified Professional in Java SE 17 with a passion for continuous learning and developing efficient, reliable software solutions.

TECHNICAL SKILLS

- **Programming Languages:** Java (Oracle Certified), Python
- **Database:** MySQL, Relational Database Management, CRUD Operations, Schema Design, Query Optimization
- **Backend & Web:** Flask, REST API, HTML, CSS, JavaScript
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, Problem Solving, Algorithm Design, Complexity Analysis
- **Software Development:** Software Development Life Cycle (SDLC), Software Testing
- **Domain Expertise:** Software Development, Machine Learning, Deep Learning, Computer Vision, Medical Image Analysis
- **Developer Tools:** VS Code, Git, Github.
- **Libraries:** Pandas, Numpy.

PROJECTS

Skin Disease Classification App | Android Application | Flutter, Flask, XAMPP/MySQL

- Developed an AI-based skin disease classification application using a deep learning model, with Flutter frontend and Flask backend for prediction.
- Integrated XAMPP/MySQL for database management and storage of user and prediction information.

Diet & Calorie Tracking Website | Full-Stack Web Development

- Designed and developed a full-stack web application for recording meals, monitoring calorie intake, and analyzing nutritional information.
- Implemented user authentication, BMI calculation, progress visualization, and personalized goal-tracking features.

Pothole Detection Web Application | AI/ML, Flask, Streamlit, XAMPP/MySQL

- Developed an AI-based pothole detection system using a deep learning model, with Streamlit for the frontend and Flask for backend processing.
- Integrated XAMPP/MySQL for database management and storing detection-related information.

CERTIFICATIONS

- **Oracle Certified Professional: Java SE 17 Developer** — Oracle University | February 2026
- **SQL Certification** — Udemy | Relational Database Management, Joins, Normalization, CRUD Operations, Schema Design, Query Optimization

EDUCATION

- **B.E., Computer Science and Engineering** — Saveetha School of Engineering, Saveetha University, Chennai. CGPA: 8.2/10 | 2022 – 2026
- **HSC** — AIM Matric Higher Secondary School, Tiruvannamalai Tamil Nadu State Board | 2020 – 2021

CONFERENCE

Evaluating Neuro-Fuzzy Systems and Deep Reinforcement Learning Approaches | AIP Conference

- Presented paper in an AIP International Conference focused on neuro-fuzzy systems and deep reinforcement learning applications in financial modelling and portfolio optimization.

SOFT SKILLS

- Communication | Team Collaboration | Adaptability & Quick Learning | Time Management
